STRENGTHEN YOUR TAROT READING CONFIDENCE

SEE

What is the very first thing you see on the card. What's the next thing you see. What do these images mean to you?

Journal your findings.

FEEL

How do you feel about the first thing you see? How do you feel about the next thing you see?

Journal your findings.

KNOW

What do you know about what you are seeing on the card? What are the key words? What are you pretending not to know about the card?

Journal your findings.

TRUST

Above all trust what you are feeling about the things you are seeing and the images that are being drawn to your attention. After you have done this exercise - only then can you refer to the book - you will be surprised at just how accurate your interpretation is!
